FLX2.15 CONNECTOR TO FCA_MARELLI_MM10JA

CABLE IN BENCH MODE CONNECTION

SKU code : FLX2.15

ECU Cable FLX2.15

FLX2.15 connector to FCA_MARELLI_MM10JA Cable in BENCH MODE CONNECTION

SKU Code: FLX2.15

This Cable allows to interface some types of ECU with FlexBox. As shown in the technical design section (Fig.1), it is necessary to connect to the FlexBox ports A and B. The goal of the FLX2.15 Cable is to obtain:

- A secure connection mode
- A faster communication speed between ECU and FLEX
- A faster connection between ECU and FlexBox
- A minimal error risk during connection

ECU Compatibility:

FCA MARELLI MM10JA

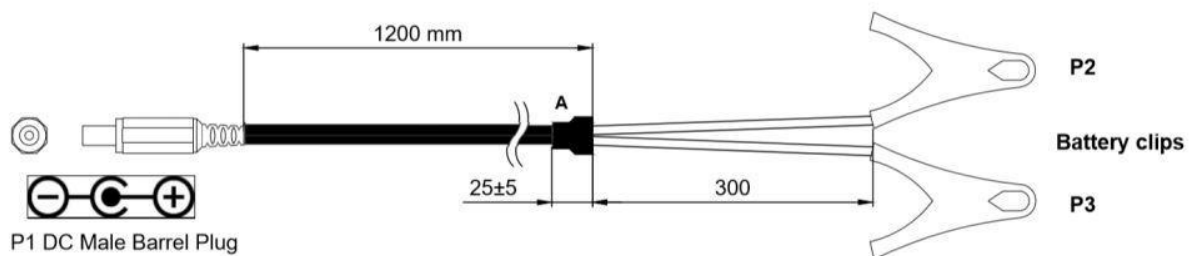

Brand e modelli compatibili:

Alfa Romeo Stelvio

Alfa Romeo Giulia

Additional Accessories;

FLX2.45

Correct disposal:

Waste electrical and electronic equipment is waste of a particular type consisting of many electrical or electronic equipment that the owner intends to discard as it is defective, unused or obsolete and therefore destined to be abandoned.
