

ECU CABLE FLX2.40

USER MANUAL

FLX2.40 CONNECTOR TO DENSO_xx
CABLE IN **BENCH MODE CONNECTION**
SKU code : FLX2.40

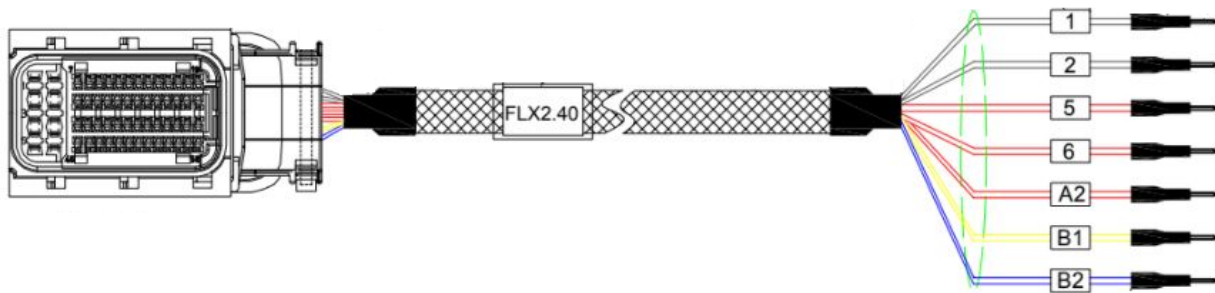

Fig.1

ECU Cable FLX2.40

FLX2.40 Connector to DENSO_xx Cable in BENCH MODE CONNECTION.

SKU Code: FLX2.40

This Cable allows to interface some types of ECU with FlexBox. As shown in the technical design section (Fig.1), it is necessary to connect to the FlexBox ports A and B. The goal of the FLX2.40 Cable is to obtain:

- A secure connection mode
- A faster communication speed between ECU and FLEX
- A faster connection between ECU and FlexBox
- A minimal error risk during connection

ECU Compatibility:

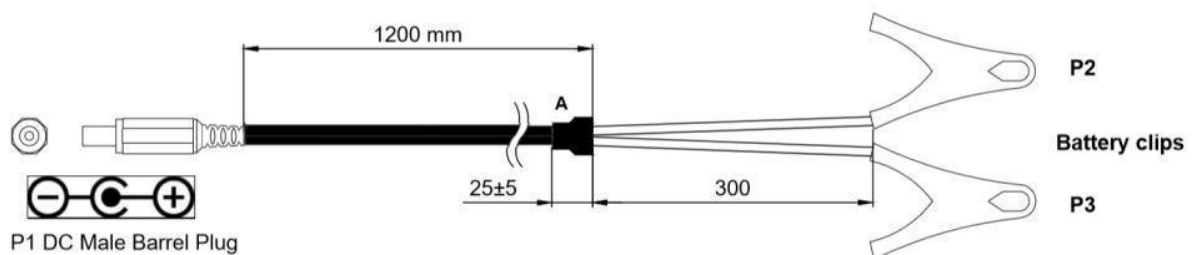

- DENSO_xx
- DENSO_R2AJ
- DENSO_R2AA (2 VCC)
- DENSO_R2AX
- DENSO_4B
- DENSO_3W
- DENSO_G1
- DENSO_ZY
- DENSO_NN
- DENSO_KS

Brand and Model:

- Mazda
- Mitsubishi
- Nissan
- Subaru Forester
- Subaru Legacy

Additional Accessories;

FLX2.45

Correct disposal:

Waste electrical and electronic equipment is waste of a particular type consisting of many electrical or electronic equipment that the owner intends to discard as it is defective, unused or obsolete and therefore destined to be abandoned.
