# TCU Cable FLX 2.21

*FLX2.21 F-Port of FlexBox to BMW ZF 6HP on BENCH MODE CONNECTION*

SKU code: FLX2.21

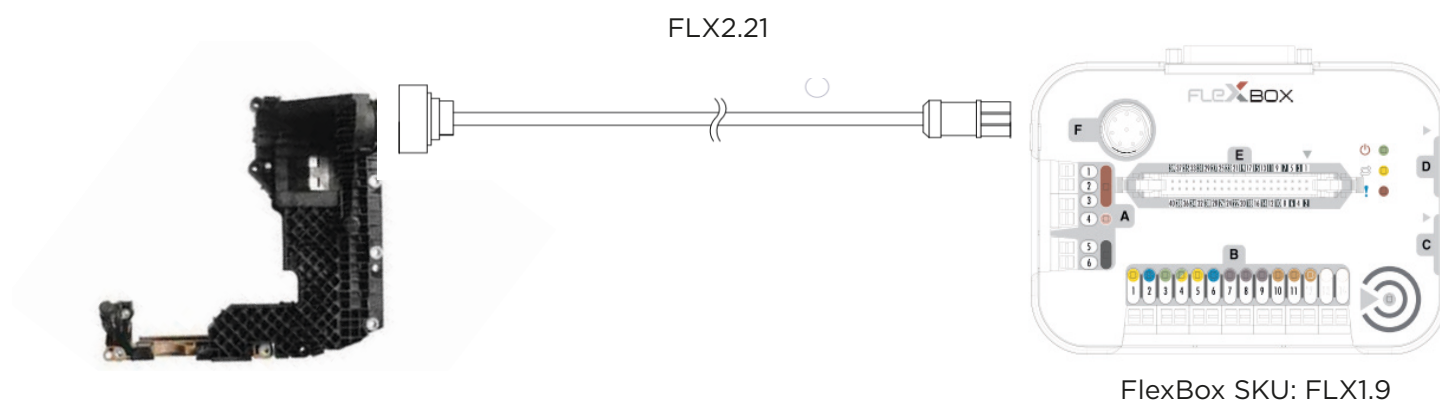

This Cable connects many TCU types to the F-port of FlexBox. The goal of the FLX2.21 Cable is to obtain:

- A secure connection mode
- A faster communication speed between TCU and FLEX
- A faster connection between TCU and FlexBox
- A minimal error risk during connection

## TCU Compatibility:

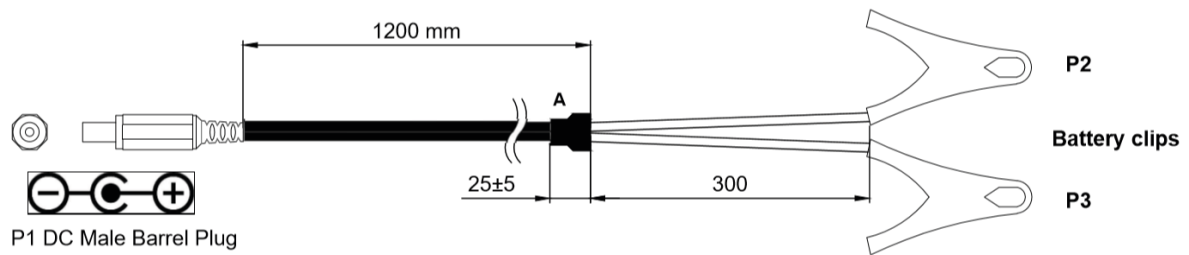

BMW\_CONTINENTAL\_6HP

## Additional Accessories:

FLX2.45

## Correct disposal:

Waste electrical and electronic equipment is waste of a particular type consisting of any electrical or electronic equipment that the owner intends to discard as it is defective, unused or obsolete and therefore destined to be abandoned.
